

**UNDER SECRETARY OF DEFENSE
4000 DEFENSE PENTAGON
WASHINGTON, D.C. 20301-4000**

SEP 27 2005

**MEMORANDUM FOR SECRETARY OF THE ARMY
SECRETARY OF THE NAVY
SECRETARY OF THE AIR FORCE
ASSISTANT SECRETARY OF DEFENSE (HEALTH
AFFAIRS)**

**SUBJECT: Expediting Veterans Benefits to Members with Serious Injuries and
Illnesses**

The Department of Veterans Affairs (VA) and the Department of Defense (DoD) identified an initiative to expedite data exchange between the DoD and the VA for "seriously injured" members, and those members entering the Physical Evaluation Board Process. The goal is to assist the VA in its efforts to better ensure members are aware of their benefits and that these benefits start as soon as possible when the member is eligible.

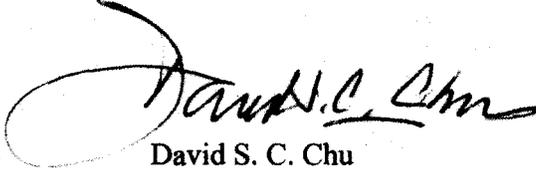

I request the Military Departments initiate a data report that includes member's name, social security number, unit identification, current location, contact information, and brief explanation of condition on all members where a Medical Evaluation Board dictates submission to the Physical Evaluation Board. Please provide this information once every three weeks, securely (virtual private network or secure system) and electronically to the DVA (Office of Seamless Transition), through Health Affairs, TRICARE Management Activity (TMA), Clinical Information Technical Project Office.

In addition, I request the U.S. Army Surgeon General (Decision Support Center) initiate an all Service data report that includes member's name, social security number, unit identification, current location, contact information, and brief explanation of condition, once every three weeks, as outlined above, on the attached categories of individuals.

The provisions of DoD 6025.18-R, "DoD Health Information Privacy Regulation," January 2003, including paragraph C7.11.7.2, authorize the required disclosure of information described above.

First reports are requested no later than October 15, 2005. My point of contact is Lieutenant Colonel Bruce Ruscio at (703) 681-1703 or Bruce.Ruscio@ha.osd.mil.

David S. C. Chu
